## WOULD BACK OUT OF GIVING OVER HER WAR CRIMINALS

Germany Has Warned Allies That She Cannot Assume She Has the Right

Fears Internal Trouble, of Which Erzberger's Shooting is Precursor

Berlin, Wednesday, Jan. 28.—(By the Associated Press.)—Indication of the Government's growing concern over the extradition of Germans accused of war offenses was given in the note sent to the Allies today, asking revision of clauses in the Versailles treaty, the attempted assassination of Matthias Erzberger, Minister of Finance, last Monday, is viewed in official circles as a precursor of what is likely to happen on a larger scale if the Government, yielding to the Allies, appeals to force in arresting men in the list submitted by the Entente powers.

The note to the Allies, which will be published in Germany, warns the Allies powers that Germany cannot assume she is able to compel other national or local agencies of the law to lay hands on the men named and transfer them to German frontiers.

The Associated Press is informed that even responsible officials of the Foreign Office have announced point blank they would refuse to execute any work connected with extradition formalities, and that they threaten to strike or induce in "passive resistance."

The economic situation in Germany is precarious at present, and this is an unsuitable period to invite trouble, the note indicates, continuing to point out that trouble, if it comes, will not be confined to any single party.

"The whole nation is likely to go on a general strike," an official declared today, "while the Allies demand that the Government has no hint of when it is coming, or who is wanted."

## Must Have Full Peace At Once With Soviets

(A. P. Special Cable.)

London, Jan. 28.—Complete and immediate peace for Soviet Russia is declared urgently in a manifesto signed by eighteen prominent Labor leaders, including John Robert Clynes, former Food Controller; James H. Thomas, general secretary of the National Union of Shipbuilders and Workers; and others.

The manifesto states that they "do not subscribe to the political and economic theories on which the Government is based," but contend that a continuance of the state of war is inexcusable, and that the cause of best risk all round is peace. They maintained that if the Soviet Government is merely imposing the yoke on the Russian people by

(The manifesto is believed that people are weary of privation and hunger, and that those conditions will be perpetuated by a state of war, the horror of which will fall, not upon the tyrannical Government, but upon the people, and will be a determining influence in the next year or two, "will not regard Russia as a country to be dominated by a foreign power, but as a country which should be free to determine its own destiny.")

## BRITISH MINERS GIVE A WEEK'S DELAY ON RECENT DEMANDS

Then Federation Will Act to Stop Profiteering They Say.

(A. P. Special Cable.)

London, Jan. 28.—Compliance with Premier Lloyd George's request that they postpone further action with reference to their recent demands was decided upon by the miners' delegates at a conference here this morning.

The delegates said that the Government would immediately the price of industrial and export coal; proceed with the limitation of coal owners' profits, the limitation to be retroactive, and take steps to reduce the cost of food and clothing, and to increase the wages of the miners.

The postponement agreed to by the miners was for the period of one week, in order to allow the chartered companies sufficient time to report regarding the figures of the profit of coal.

Robert Smilie, the miners' leader, declared today that these

amounted to £10,000,000 to £20,000,000 annually. He added that if the present profiteering continued, the miners' Federation would use its organization in an endeavor to stop the extortion.

Aldermen Delighted With the Institution.

The city hall was first gone over, some cleaning of walls, painting, improving ventilation and roof work being found necessary. The central market weight scales and lavatories, old police library, the city street market, the various weigh scales, and the city yard and coal plant being taken in. The members were greatly impressed with the coal plant, which was being unloaded from hopper cars and carried by the automatic system to the chutes, while they were there. The main wood yard has been cleared of the old Algonquin Park wood, which is ready for the new supply, but there is a considerable quantity on hand in the adjoining lot.

The party wound up at the Home for the Aged, and returned. This was a revelation to the new members. The spotless cleanliness of the institution, the grounds surrounding it, and the inmates was delightful, but the best of all was the absence of the old inmates. There are 117 of them just now, and they are a happy lot, and the healthy good. The inmates are treated. All had kind and pleasant surroundings.

Mr. and Mrs. Rae entertained the committee at supper, after which the committee's great appreciation of the services of these efficient officials, who have been there twenty-three years. All the other guests spoke too, and expressed on behalf of Mrs. Rae and herself and the staff of whom he and Mrs. Rae spoke in the highest terms.

## WHOLESALE GROCER WOULD WELCOME RANEY'S PROBE

H. C. Beckett Says He Has Wanted Such a Thing For Years

Retail Grocers Not Saying Much on the Subject Just Now

Members of the Retail Grocers' Association preserved a calm and inarticulate exterior this morning when approached by representatives of the press with a request to give their ideas on the proposed action of the Hon. W. E. Raney, the Attorney-General, in regard to the alleged conspiracy of Hamilton to fix prices.

It was merely pointed out by Mr. W. H. Hobson, J. P. (Hobson), that the Retail Grocers' Association has little to do with the movement as a whole, but that the new organization resembles very much the "wheel within a wheel." In other words the men who have recently met to take action against the alleged unfair practices of grocery departments of departmental stores, and which is claimed to be encouraged and abetted by manufacturers by special prices to those stores, are bona fide members of the Retail Grocers' Association. They are also banded together for purposes of protecting the retail trade.

The new Retail Association is backed by the wholesale houses in this field is not denied, nor is it confirmed. Mr. Hobson made the broad statement that the new association was not authentic and should not be accepted as final. On the other hand H. C. Beckett, manager of the H. G. Gillick wholesale grocery establishment, had no hesitation in declaring his interest in the struggle. From his statements it would appear that the wholesalers have a very keen interest in the outcome of the mooted investigation.

"I have," said Mr. Beckett this morning, "written a letter and spoken. I admit it. I will continue to be the same dynamic force as I have always been in such matters," Mr. Beckett then handed over the following statement to the Times:

"The consumer is entitled to the fullest information regarding all matters concerning the inland trade of Canada. It is the duty of those vested with authority to insist upon investigation, not only of the grocery trade, but of other lines of trade in Canada. While consumers have undoubtedly cause for complaint, they are apt to put the blame on the shoulders of the wrong people. Investigation will result in commendation of some and condemnation of others. This is as it should be, and must be, if we are to have the root of the trouble. As all classes of trade, therefore, need investigation, I sincerely trust that the wholesale grocers of not only Ontario but of the whole of Canada, will be investigated first. Then follow the investigation of the other lines of trade, after which adopt a standard of sound business ethics. We will then have a much happier state of affairs in Canada."

It will be recalled that recently the local branch of the Board of Commerce attempted an investigation of the prevailing prices of ham and bacon, at which were present prominent grocers and packers. It was stated that it was but one of a series of investigations reaching to all branches of the trade. Just what has happened to the investigator, Col. Johnston, has not been announced. The fact remains that investigations ceased abruptly at that point. The Times was informed this morning that Col. Johnston is away on holidays now and that his office has been vacated.

# THE REMEDY "League of Nations Bonds" as Basis Other Than Gold.

Toronto, Jan. 28.—A future of world peace, in which the United States, despite her enormous wealth, would be involved equally with other nations, unless her financiers can be persuaded to think international money as a means of exchange, is the dominating picture painted by Sir George Paisley, former editor of the *Standard*, and financial adviser to the British Government during the war, the speaker at an overflow meeting of the Canadian Club in the King Edward Hotel yesterday.

One of the greatest living authorities on finance and economics in the world today, Sir George Paisley, in his address, outlined the present method of financing the hundreds of millions of dollars of war debts, and pointed out that the only way to solve the situation is by the purchase in the United States of European investment securities, a type of security which the American financiers have not yet learned to understand. Sir George Paisley, during the past few years, has been one of the most active of the world's financiers, and he has been one of the most active of the world's financiers, and he has been one of the most active of the world's financiers.

"The whole world has been through a war of the world, and nations are now having to produce for which they have little or no means of making money," Sir George Paisley said. "The world is now having to produce for which they have little or no means of making money."
